CONTENTS

Charing Cross and Westminster Meeting

Demonstrations

Abnormal segment 'work' in the alternating heart of the anaesthetized pig
M. Moutoussis, I.B. Gartside and M.J. Lab 2

Interval dependence of mechanically induced early afterdepolarizations in ventricle of anaesthetized pigs
M.J. Lab and D.J. Dick 3

A device for atraumatic recording of regional electromechanical signals from the heart at surgery in man
M.J. Lab, F.G. Harrison and G. Bennet 4

Mechanical alternans induced in isolated guinea-pig papillary muscles by a combination of hypothermia and rapid pacing
C.I. Spencer, M.J. Lab and W.A. Seed 5

January 1891 - The Physiological Society at Charing Cross
P.H. Ellaway, H.R. Hague, F. Harrison and E.M. Tansey 6

Facilitation by mechanical cutaneous stimulation of muscle responses to transcranial magnetic stimulation in man
N.J. Davey, P.H. Ellaway and D.W. Maskill 7

Method for measuring the time course of twitch tension from a single motor unit in man
P.H. Ellaway, I.B. Gartside, P. Romaiguère, S.R. Rawlinson and E. Wells 8

A computer-assisted practical class on isolated frog sciatic nerve: software and hardware
Ivor B. Gartside 9

Apparatus for the production of step changes in cuff pressure for venous occlusion plethysmography in man
Ivor B. Gartside and John Gamble 10

An electronic membrane osmometer to measure the oncotic pressure of microlitre quantities of oedema fluid
D.O. Bates, J.R. Levick and P.S. Mortimer 11

A re-assessment of the relationship between the protein concentration (CONC) and colloid osmotic pressure (COP) of fresh, heparinized human plasma (HP) and bovine serum albumin (BSA)
J. Gamble 12

A simple analogue circuit to provide a voltage proportional to 'instantaneous' minute ventilation from respiratory airflow for use in studies with targeted breathing
S.H. Moosavi, L. Adams and K. Murphy 13

A simple technique to study human laryngeal respiratory muscle action (LRMA) during different tasks in health and disease
A.K. Datta, H. Holden and A. Guz 14

Comparison of within-breath variations in left ventricular stroke volume during positive-pressure and spontaneous ventilation in man
S.C. De Cort, J.A. Innes and A. Guz 15

Generation and measurement of rapid changes in airway pressure in man
J.A. Innes, R.L. Horner and A. Guz 16

Facilitation of the diaphragmatic response to transcranial magnetic stimulation with peripheral nerve stimulation
K. Murphy, L. Adams, A. Mier, D. Maskill, D. Lobo and A. Guz 17

A protocol for studying the effects of changes in orthostatic pressure on the responses of the human limb to cuff inflation using mercury-in-Silastic strain gauge plethysmography
J. Gamble, F. Christ and I.B. Gartside 17

Communications

Restitution of mechanical force during alternans in isolated guinea-pig papillary muscles
C.I. Spencer, M.J. Lab and W.A. Seed 18

Effect of diastolic membrane potentials on twitch force in isolated ferret papillary muscle
P. Arlock, M.I.M. Noble and B. Wohlfart 19

Effect of β-adrenergic agonists on maximum output pressure in the isolated rabbit heart during hyperkalaemia
David J. Paterson, Stewart Leitch, Simon M. Phillips and Hilary F. Brown 20

Endothelin-stimulated inositol phosphate formation in aorta and cultured aortic cells from spontaneously hypertensive rats
G.F. Nixon, F. Pasanisi, C. Pryce, C.A. Hamilton, R.M. Wadsworth and J.L. Reid 21

A comparison of the action of angiotensin II, 5-hydroxytryptamine and adenosine triphosphate on ionic currents in rabbit single ear artery cells
A.D. Hughes and T.B. Bolton 22

Effects of progesterone on contractility of rat isolated vascular smooth muscle
Catherine Huyton and Helen L. Leathard 23

Measurement of regional cerebral blood flow during volitional breathing using positron emission tomography in man
J.G. Colebatch, L. Adams, K. Murphy, A.J. Martin, A.A. Lammertsma, H.J. Tochon-Danguy, J.C. Clark, K.J. Friston and A. Guz 24

Carotid sinus baroreceptor reflex during the Valsalva manoeuvre in man
S.A. Choksy, D.J. Collier and J.E. Angell-James 25

The influence of metabolic acidosis on the sensation of breathlessness in man during exercise and hypercapnia
R. Lane, L. Adams and A. Guz 26

The effects of imposed breathing frequencies on gas exchange during moderate exercise in man
S. Bojanic, G.J.C. Burkill and S.J. Walter 27

Modelling the human ventilatory response to isocapnic hypoxia
Rosemary Painter, Saeed Khamnei and Peter A. Robbins 28

The effect of short-term hypoxic exposure on ventilation and carotid body dopamine blockade in anaesthetized rats
Denise Bee 29

Effect of cortical stimulation on the execution of fast complex arm movements in man
A. Berardelli, M. Inghilleri, G. Gruccu and M. Manfredi 30

Motor performance following the bilateral lesion of the supplementary motor area (SMA) in man
J.A. Obeso, J. Artieda, A. Oliver, J. Muruzabal and L. Barraquer-Bordas 31

Longitudinal study of babies developing cerebral palsy: neuro-physiological signs of spasticity with normal conduction in the fastest fibres of the corticospinal pathway
M.C. O'Sullivan, V. Ramesh, S. Miller and J.A. Eyre 32

Reorganization in motor pathways following a large congenital hemispheric lesion in man: different ipsilateral motor representation areas for ipsi- and contralateral muscles
L.G. Cohen, T. Zeffiro, S. Bookheimer, E.M. Wassermann, P. Fuhr, J. Matsumoto, C. Toro and M. Hallett 33

Physiological studies in a patient with mirror movements and agenesis of the corpus callosum
J.C. Rothwell, J. Colebatch, T.C. Britton, A. Priori, P.D. Thompson, B.L. Day and C.D. Marsden 34

Raised motor cortical threshold associated with bradykinesia as revealed by transcranial magnetic stimulation in normal man and Parkinson's disease
N.J. Davey, J.P.R. Dick, P.H. Ellaway and D.W. Maskill 35

The respiratory responses to magnetic stimulation of the cortex in sedated and anaesthetized baboons
W.A. Karczewski, K. Budzinska, K. Glowicki, M. Malinowska and M. Ryba 36

Unilaterality of the motor cortical representation of the human diaphragm
T. Similowski, M. Catala, B. Orcel, J-C. Willer and J-P. Derenne 37

Enhancement of the H reflex after anaesthetic blockade of afferents from antagonist muscles in man
J. Artieda, P. Quesada and J.A. Obeso 38

Modulation of excitatory and inhibitory reflexes in muscles of the shoulder in normal subjects and stroke patients performing a cyclical task
S. Miller and R.D. Plant 39

Delayed motor unit discharges associated with a high degree of short-term synchrony in isometric contractions in man
J.R. Baker, N.J. Davey, P.H. Ellaway and C.L. Friedland 40

Phases of depressed axonal function after spinal trauma in anaesthetized cats
V.E. Amassian and M. Jayachandra 41

Effects of analytical and visuo-spatial cognitive tasks on spatio-temporal characteristics of the human auditory evoked potential
E.A. Davies, M.F. Regan, P.J. McCullagh, R.J. McClelland and W.F.M. Wallace 42

Studies correlating NMDA-stimulated efflux of [^{3}H]dopamine from rat brain striatal cores with conditioned avoidance behaviour
M. Smith, D. Rakhit, D.R. Patel and J.M. Turnbull 43

Induction of sarcoplasmic reticulum Ca^{2+}-ATPase synthesis by thyroid hormone in the L6 muscle cell line is potentiated by insulin-like growth factor-I (IGF-I)
A. Muller, C. van Hardeveld, W.S. Simonides and J. van Rijn 44

Metabolite changes, without intracellular acidification, are sufficient to cause the fall of force in hypoxia in isolated rat uterus
Susan Wray 45

Lactate efflux from fatigued single muscle fibres of *Xenopus laevis*
A.S. Nagesser, W.J. van der Laarse and G. Elzinga 46

Rate of oxygen consumption of single *Xenopus* muscle fibres is proportional to oxygen taken up in recovery
W.J. van der Laarse and G. Elzinga 47

Force–velocity relation for shortening and lengthening of fatigued isolated muscle fibres from frog
N.A. Curtin and K.A.P. Edman 48

Singular value decomposition of mechanical signals from anaesthetized pig heart
M. Moutoussis, A.V. Holden and M.J. Lab 49

Plasma thymulin concentrations in cardiac patients: involvement with the ypothalamic-pituitary-adrenal axis
B. Safieh, G.E. Venn, M.A. Ritter, S. Singh, J.C. Buckingham and M.D. Kendall 50

The influence of lipocortin 1 on hypothalamo-pituitary-adrenocortical (HPA) function in the rat *in vivo* and *in vitro*
H.D. Loxley, A-M. Cowell, P.O. Cover, R.J. Flower and J.C. Buckingham 51

Interactions between GABAergic and somatostatin-producing cells in cultures of fetal rat hypothalami
G.E. Gillies, S. Guldenaar and K. Davidson 52

Contractile myogenic response of the coronary vessels in the anaesthetized dog
D. Gattullo, R.J. Linden, G. Losano, P. Pagliaro and P. Vono 53

Inhibition of coronary arterial platelet thrombosis in the anaesthetized dog by antagonism of the $5HT_2$ receptors
B. Cox, S.J.G. McAuliffe, M.I.M. Noble and H.M. Snow 54

Changes in superior mesenteric artery blood flow during sympathetic activation in normal subjects
K. Ray Chaudhuri, T. Thomaides, P. Hernandez and C.J. Mathias 55

Effect of phentolamine on initial cardiovascular response to isocapnic hypoxia in intact and carotid sinus denervated fetal sheep
D.A. Giussani, J.A.D Spencer, P.J. Moore and M.A. Hanson 56

An assessment of the correlation between cyclic changes in limb circumference and cardiovascular instability using mercury in rubber strain gauge plethysmography (MSG) in man
F. Christ, I. Gartside, W. Kox and J. Gamble 57

Changes in colloid osmotic pressure (COP) during continuous veno-venous or arterio-venous haemodialysis (CVVHD/CAVHD) in man
F. Christ, S. Weidel, K. McIntyre, T. Jameson, W.J. Kox and J. Gamble 58

The effect of high frequency oscillation on the non-Newtonian properties of sputum
C. Moores and A. Davies 59

Uncoupling of proximal tubular handling of sodium and phosphate in man
F.H. Noormohamed and A.F. Lant 60

A micropuncture study of renal lithium handling in anaesthetized rats
D.G. Shirley, S.J. Walter and B. Sampson 61

Effect of formate and oxalate on fluid reabsorptive rate (J_V) in the proximal convoluted tubule of the anaesthetized rat
M. Wareing and R. Green 62

Effects of diabetes mellitus on calcium handling by the proximal tubule and loop of Henle in anaesthetized rats
H.O. Garland, P.J. Harris and T.O. Morgan. 63

Renal function in papillary, necrotic chronically instrumented, conscious rats: effects of bumetanide
J. Plange-Rhule, A. Marshall, D. Robinson, A. Turnbull and J.C. Atherton 64

The effect of several classes of diuretic on water (J_V), sodium (J_{Na}) and potassium (J_K) transport in the anaesthetized rat loop of Henle (LOH) *in vivo*
G. Capasso, G. Giebisch and R. Unwin 65

Natriuretic effect of arginine vasopressin in papillary necrotic, chronically instrumented, conscious rats
J. Plange-Rhule, A. Marshall, D. Robinson, A. Turnbull and J.C. Atherton 66

The natriuretic actions of the neurohypophysial hormones in the rat
R.J. Windle, M.L. Forsling and J. Judah 67

A novel atrial peptide receptor in the kidneys of 3-week-old spontaneously hypertensive rats
J. Brown 68

Effect of atrial natriuretic factor (ANF) on steroidogenesis in teleost fish, the flounder, *Platichthys flesus*, and the trout, *Salmo gairdneri*, *in vivo* and *in vitro*
D.E. Arnold-Reed and R.J. Balment 69

Stimulation of atrial natriuretic factor (ANF) secretion from isolated guinea-pig atrial strips
P.F. Speake, S. Pirie and R. Green 70

Royal Free Meeting

Demonstrations

Extracellular recordings from lower thoracic and lumbar sympathetic preganglionic neurones in the anaesthetized rat
S-Y. Zhou and M.P. Gilbey 72

Anterograde labelling of some short CNS pathways under acute experimental conditions in the rat and cat
J. Deuchars, R.M. Sykes, H.I. Choudhury and P.N. Izzo 73

Integrating cellular and haemodynamics events in didactic simulations of cardiovascular dynamics
J. Lefevre and P. Van Roey 74

Measurement of the ionic composition of urine with ion-selective electrodes
S.E.M. Langley, J. Graves and C.H. Fry 75

The use of Mag-Fura-2 to measure the intracellular Mg^{2+} concentration, $[Mg^{2+}]_i$, in isolated guinea-pig ventricular myocytes
A. Buri, C.H. Fry, J.A.S. McGuigan, D. Noble, T. Powell and V.W. Twist 76

Anatomical identification of the origin and chemistry of synaptic inputs onto vagal motoneurones in the rat and cat
J. Deuchars and P.N. Izzo 77

Communications

The effect of glutamate receptor antagonists on rat thermoreactive hypothalamic neurones
M.J. Parton, R.J. Gayton and D.C.M. Taylor 78

Activation of $GABA_B$ receptors causes pre- and postsynaptic effects in the rat nucleus tractus solitarius (NTS) *in vitro*
P.A. Brooks, A.J. Bradley, S. Glaum and R.J. Miller 79

Demonstration of a monosynaptic pathway from the nucleus tractus solitarius to regions of the ventrolateral medulla with specific reference to vagal motoneurones in the nucleus ambiguus of the anaesthetized cat
J. Deuchars and P.N. Izzo 80

Rhythmic activity of neurones in the dorsomedial region of the nucleus tractus solitarius (NTS) of the rat *in vitro*
J.F.R. Paton, W.T. Rogers and J.S. Schwaber 81

Inhibitory influence from the ventrolateral periaqueductal grey matter on rostral ventrolateral medullo-spinal neurones in anaesthetized rats
T.A. Lovick 82

Microinjection of phenylephrine into the intermediolateral cell column elicits an increase in cardiac sympathetic nerve activity in the anaesthetized cat
S.A. Marks and M.P. Gilbey 83

Examination of the sympatho-excitatory action of the 5-HT_2 agonist, 1-(2,5-dimethoxy-4-iodophenyl)-2-aminopropane (DOI), on cardiac sympathetic nerve activity in the anaesthetized cat
A.G.Ramage, S.L.Shepheard, D.Jordan and M.C.Koss 84

Lack of vascular pressure equilibrium during the measurement of mean circulatory filling pressure in urethane-anaesthetized, ganglion-blocked rats
Andrew J. Rankin and Linong Cheng 85

Reflex vasodilatation to independent changes in aortic root and left ventricular pressures in the anaesthetized dog
M.J. Drinkhill, J.K.A. Al-Timman and R. Hainsworth 86

The stroke volume reduction by baroreceptor activation in human volunteer subjects is mediated by the vagus
B. Casadei, T. Meyer, A.J.S Coats, J. Conway and P. Sleight 87

The role of vasopressin in the regional vascular responses induced by hypocapnic hypoxia in the anaesthetized rat
Anne-Marie Louwerse and Janice M Marshall 88

Effects of endothelin-1 on carotid baroreceptor and chemoreceptor activity in the anaesthetized cat
D.S. McQueen, M.R. Dashwood and R.M. Sykes 89

An investigation of some of the mechanisms linking cardiac action potential duration to mechanical events in the isolated guinea-pig heart and the heart of the anaesthetized dog
D.S. Coulshed, M.J. Drinkhill, J.C. Cowan and R. Hainsworth 90

Chemo-mechanical coupling in the left ventricular dynamic compliance
J. Lefevre 91

Blood pressure and heart rate variability in response to controlled respiration in human volunteers undergoing sustained +Gz acceleration
I. McKenzie 92

Vascular responses evoked by isometric hand grip in the contralateral forearm of human subjects
Christina Cotzias and Janice M. Marshall 93

Abnormal vascular responses in the diabetic foot are a result of neuropathy and not microangiopathy
M.J. Stevens, M.E. Edmonds and P.J. Watkins 94

Inability to constrict actively the superior mesenteric artery in human autonomic failure
K. Ray Chaudhuri, T. Thomaides and C.J. Mathias 95

Protein kinases modulate Ca sensitivity of cardiac myofilaments in rat skinned cells
Odile Clement, Michel Puceat and Guy Vassort 96

α-Adrenoceptors modulate intracellular pH in single rat isolated ventricular cardiomyocytes
A. Terzic, Odile Clement and M. Puceat 97

Possible involvement of a chloride conductance in the transient outward current of ferret ventricular myocytes
A. Bouron, D. Potreau and G. Raymond 98

A cholera toxin sensitive G-protein mediates the P_2-purinergic stimulation of calcium current in rat ventricular cells
Frederique Scamps and Guy Vassort 99

Desensitization to acetylcholine in single sino-atrial node cells isolated from the rabbit heart
H. Honjo, I. Kodama and M.R. Boyett 100

The kinetics of desensitization to acetylcholine in single atrial cells isolated from the guinea-pig heart
W.-J. Zang and M.R. Boyett 101

Creatine kinase in the gestating guinea-pig uterus
J.F. Clark, Z. Khuchua, A.V. Kuznetsov and R. Ventura-Clapier 102

Evidence that nitric oxide mediates human penile erection
R.S. Pickard, P.H. Powell and M.A. Zar 103

Single Ca^{2+}-activated K^+ channels recorded from human cultured myometrial cells
M.L.J. Ashford, R.N. Khan and S.K. Smith 104

Calcium currents in bovine adrenal chromaffin cells
P. Charlesworth, G. Pocock and C.D. Richards 105

Single potassium channel currents in rat hippocampal neurones maintained in culture
K.T. Wann, G. Pocock and C.D. Richards 106

Effects of acetylcholinesterase on the membrane properties of guinea-pig cerebellar Purkinje cells recorded intracellularly *in vitro*
M.E. Appleyard and H. Jahnsen 107

Uptake of sulphur-containing amino acids by the electrogenic glutamate uptake carrier in glial cells isolated from the salamander retina
Muriel Bouvier, Barbara Miller, Marek Szatkowski and David Attwell 108

Pertussis toxin pretreatment increases glutamate release and dihydropyridine binding sites in cultured rat cerebellar granule neurones
E. Huston, M.S. Fazeli, H.A. Pearson, V.H. Norris, M. I. Sweeney and A.C. Dolphin 109

Voltage-dependent block by *l-cis*-diltiazem of cyclic GMP activated conductance in rod bipolar cells of dogfish retinal slices
R.A. Shiells and G. Falk 110

Rectification in identified rat sympathetic preganglionic neurones *in vitro*
A.E. Pickering, D. Spanswick and S.D. Logan 111

Inhibitory postsynaptic potentials in sympathetic preganglionic neurones (SPN) in rat spinal cord *in vitro*
D. Spanswick and S.D. Logan 112

Local circuit excitatory and inhibitory connections in slices of rat thalamus
Alex M. Thomson and David C. West 113

Assessment of hepatic microcirculation by laser Doppler flowmetry in the *in situ* perfused liver of anaesthetized rats: effect of perfusate haematocrit
A.M. Wheatley and N.E. Almond 114

The effects of sustained isocapnic hypoxia during steady-state exercise in man
J.J. Pandit and P.A. Robbins 115

Effect of propranolol on arterial plasma potassium ($[K^+]_a$) and ventilation during exercise in man
D.J. Paterson, J. Conway and P.A. Robbins 116

Pharmacological characteristics of adrenal responses to acetylcholine in conscious calves
A.V. Edwards and C.T. Jones 117

The effect of a corticotrophin releasing factor antagonist on adrenal function in conscious calves
C. T. Jones and A. V. Edwards 118

The effect of intracerebroventricular injection of hypertonic solutions on local cerebral glucose utilization (LCGU) in the conscious rat
M.R. Achaaban, T. Wells, H.K. Richards and M.L. Forsling 119

Selective activation by capsaicin of polymodal nociceptors in the rat hind paw skin saphenous nerve *in vitro* and antagonism by capsazepine
N. Seno and A. Dray 120

Histidine-stimulated ^{65}Zn transport at the blood–brain barrier of the anaesthetized rat
S. Buxani and J. Adu 121

An *in situ* vascular perfusion method for measuring blood-retinal barrier permeability in the anaesthetized rat
J. Gratton, S. Lightman and M.W.B. Bradbury 122

Effect of poly-L-lysine on the transepithelial permeability across cultured epithelial monolayers of MDCK cells
G.T.A. McEwan, B.H. Hirst and N.L. Simmons 123

Antibodies to amiloride-sensitive sodium channels reveal the possible location of the mechanoelectrical transducer channels in guinea-pig cochlear hair cells
C.M. Hackney and D.N. Furness 124

Intracellular free calcium concentration in human sweat duct cells *in vitro*: increases and oscillations induced by agonists
P. Steen Pedersen* and J. Hedemark Poulsen 125

Reduced brush-border chloride permeability is responsible for the enhanced sugar transport in isolated jejunal enterocytes from insulin hypoglycaemic rats: an *in vitro* study
E.S. Debnam and G. Chowrimootoo 126

Ethanol and hexose transport across the brush border and basolateral membranes of isolated rat jejunal enterocytes
E.S. Debnam 127

Effects of an epithelial Cl^- channel blocker on whole cell voltage clamp and patch clamp recordings from a human astrocytoma in culture
M. Baker, N.S. Crouch and J.E. Arrowsmith 128

Observations on zinc deficiency in the young rat
J. Adu, S. Betts and M.W.B. Bradbury 129

The effects of posterior cerebellar vermal lesions on the cardiovascular components of the alerting response in the rabbit
D.J. Bradley, M.A. Goring, A. La Noce and K.M. Spyer 130

Actions of 5-hydroxytryptamine on dorsal vagal motoneurones of the rat *in vitro*
P.A. Brooks 131

Carotid sinus baroreceptor modification of mean circulatory filling pressure in the anaesthetized rabbit
P.W. Humphreys and N. Joels 132

Respiratory modulation of the carotid sinus baroreceptor reflex in man
D.J. Collier, M.D. Ralph, V.L. Zadorozny and J.E. Angell-James 133

The effect of adenosine deaminase on pacing-induced coronary functional hyperaemia in denervated hearts of anaesthetized dogs
F. Karim and I.P. Goonewardene 134

[^{125}I]endothelin binding sites and endothelin-like immunoreactivity in isolated human blood vessels: a role in atherosclerosis ?
M.R. Dashwood, M.J. Collins, J.R. Muddle, R.M. Sykes, S. Theodoropoulos and M.H. Yacoub 135

Pathophysiology of photochemically induced retinal ischaemia in the anaesthetized cat
T. Asai, E.A. Dawes, M.W. Hankins and H. Ikeda 136

Distribution of glutamate immunoreactive neurones in the V main sensory and V nucleus oralis of the rat
Sikha Saha, Kwabena Appenteng and Trevor F.C. Batten 137

Topographical discontinuities modify the outgrowth of leech Retzius neurones grown in culture
R.J.A. Wilson, S.E. Blackshaw and J.A.T. Dow 138

pH regulation in guinea-pig cerebral cortex slices; recovery from an acid load and the effect of inhibitors
K.J. Brooks and H.S. Bachelard 139

Computational model of a population of baroreceptor afferents shows spatio-temporal encoding of the blood pressure waveform
W.T. Rogers, E.B. Graves, K.M. Spyer, J.F.R. Paton and J.S. Schwaber 140

University College of London Meeting

Demonstrations

Apparatus for simultaneous flash photolysis and microfluorimetry
D. Farquharson, Michael R. Duchen, R. J. Pearce and T. J. Biscoe 142

Use of the 'Sheffield' Electrical Impedance Tomography (EIT) system in imaging intracranial impedance changes with scalp electrodes in the anaesthetized rat
David S. Holder 143

The use of a laser Doppler flow meter to monitor pulpal blood flow in intact teeth of human subjects
N. Vongsavan and B. Matthews 144

Communications

Fast cross-bridge detachment and reattachment during transients elicited by step releases in tetanized isolated frog muscle fibres
V. Lombardi, G. Piazzesi and M. Linari 145

Equatorial X-ray diffraction pattern intensity during isotonic shortening or lengthening in single, intact muscle fibres of *Rana temporaria*
P.J. Griffiths, C.C. Ashley, G. Cecchi, Y. Maeda and M.A. Bagni 146

Equatorial X-ray diffraction, stiffness and force time courses during segment-length clamp of tetanized intact fibres isolated from *Rana temporaria* muscle
M. Irving, A. Mansson, R.M. Simmons, G. Piazzesi, V. Lombardi, M.A. Ferenczi and J. Harries 147

Force deficit following loaded shortening in isolated muscle fibres of the frog
K.A.P. Edman and C. Caputo 148

The role of troponin-H, a specific insect flight muscle regulatory protein, in stretch activation
M. Peckham, B. Bullard, R. Cripps and D.C.S. White 149

Enhancement of dynamic performance of skeletal muscle after a pre-stretch in the anaesthetized rat
A. de Haan and G.J.C. Ettema 150

The effect of growth on specific tetanic force in the skeletal muscle of the anaesthetized rat
M.A.N. Lodder, A. de Haan and A.J. Sargeant 151

Effect of prior exercise at two different shortening velocities on maximum short-term power output in humans
A. Beelen and A.J. Sargeant 152

The concentration of actin mRNA in *mdx* mouse muscles
P.A. MacLennan and R.H.T. Edwards 153

The susceptibility of normal and dystrophic mouse muscles to damage
P. Sacco, D.A. Jones, J. Dick and G. Vrbová 154

Time course of calcium-induced calcium release in isolated frog skeletal muscle fibres measured by fluo-3 fluorescence and initiated by photolysis of caged-calcium
J.R. Patel, S.J. Smith and M.A. Ferenczi 155

Evidence for cross-orientation inhibition in the visual cortex of the anaesthetized cat
J.M. Crook and U.T. Eysel 156

Intrinsic horizontal connections in the visual cortex of strabismic cats
Siegrid Löwel and W. Singer 157

Development of pyramidal neurones in the visual cortex of albino rats studied *in vitro*
Ekkehard M. Kasper, Alan U. Larkman and Colin Blakemore 158

Directionality, orthogonal and null suppression, of striate cortical neurones in the anaesthetized cat
Peter Hammond 159

Evidence that NMDA receptor-mediated currents prolong the time-course of EPSPs in layer 2/3 pyramidal neurones of rat visual cortex *in vitro*
Andrew Nicoll, Alan Larkman and Colin Blakemore 160

Antagonism of visual responses by selective NMDA and non-NMDA receptor antagonists in the superior colliculus (SC) of the anaesthetized rat
W.A. Roberts, S.A. Eaton and T.E. Salt 161

Orientation domain substructure to centre surround interactions in the dorsal lateral geniculate nucleus (dLGN) of the anaesthetized cat
A.M. Sillito, P.C. Murphy and J. Cudeiro 162

Effects of extraocular muscle afferent signals on units in pigeon brainstem during an artificial vestibulo-ocular reflex
P.C. Knox and I.M.L. Donaldson 163

Mechanically insensitive unmyelinated afferents supplying the hairy skin of the rat *in vitro*
M. Koltzenburg, M. Kreb, P.W. Reeh and H.O. Handwerker 164

The effect of topical capsaicin on the sensitivity to mechanical and heat stimulation of C-polymodal nociceptors in the skin of the anaesthetized rat
B. Lynn, W. Ye and B. Cotsell 165

Receptive field reorganization in dorsal horn neurones after inappropriate regeneration of sensory neurones in the anaesthetized rat
Gary Lewin and Stephen McMahon 166

The dependence of myelinated nociceptors on nerve growth factor in the neonatal rat: evidence for a post-natal critical period
Gary R. Lewin, Amy M. Ritter and Lorne M. Mendell 167

Spontaneous electrical activity in isolated bovine lymphatics recorded by intracellular microelectrodes
S.M. Ward, K.M. Sanders, K.D. Thornbury and N.G. McHale 168

The effects of adrenaline and 5-hydroxytryptamine on the rate of formation of platelet thrombi in a stenosed coronary artery of the anaesthetized dog
B. Cox, S.J.G McAuliffe, J.A. Moors, M.I.M. Noble and H.M. Snow 169

Validation of a method of continuous non-invasive monitoring of blood pressure during positive pressure breathing in man
D.P. Gradwell 170

The effect of thermoregulatory flow through arteriovenous anastomoses (AVAs) in human skin on heart rate and blood pressure variability
K. Lossius, M. Eriksen and L. Walløe 171

Heart-rate responses to tests of self-paced and treadmill walking in healthy elderly men and women
C.A. Greig, F.M.M. Butler and A. Young 172

Plasma creatine kinase in patients following routine surgery: a comparison with experimental muscle damage
D.A. Jones, J.M. Round and F. Carli 173

Leucocyte changes during and after brief intense exercise in man
D. McCarthy, I.A. Macdonald, H.A. Shaker, P. Hart, S. Georgiannos and A.J. Wade 174

Strength and cross-sectional area of the quadriceps in men and women
E.M. Winter and R.J. Maughan 175

Indicators of delayed onset muscle soreness in humans
J.B. Rodenburg, J.W.G.E. van Teeffelen, P.R. Bär and R.W. de Boer. 176

Effects of pyruvate and lactate on current through ATP-sensitive potassium channels in isolated rat and guinea-pig ventricular myocytes: evidence for a possible extra-cellular site of action
W.A. Coetzee 177

Hyperthyroidism modifies potassium currents in rabbit ventricular myocytes
Y. Shimoni and H. Banno 178

Histamine and dopamine activate inward background current in isolated guinea-pig ventricular cells
A.J. Spindler, S.J. Noble, D. Noble, T. Powell and V. Twist 179

Simulation of very large sinus node and atrial cell networks on the Connection Machine CM-2 massively parallel computer

V. Sagmanligil and R.J. Levin 361

Time and dose dependency of tachyphylaxis in rat jejunal electrogenic secretory responses stimulated by sequential bethanechol *in vitro*
S.A. Przyborski, R.J. Levin and A. Young 362

***In vitro* secretagogue responses of human jejunal biopsies: correlation with basal values in control and heterozygote groups but not in cystic fibrosis patients**
P. Baxter, J. Goldhill, J. Hardcastle, P.T. Hardcastle and C.J. Taylor 363

Increased transintestinal electrical activity of rat small intestine *in vivo* and *in vitro* induced by 5-methoxytryptamine
Jacqueline Hardcastle and P.T. Hardcastle 364

Purinoreceptors and second messenger signalling in the human colonic adenoma cell line, HT29/219
B.W. Hitchin, P.R.M. Dobson, A. Ruprai, J. Hardcastle, P.T. Hardcastle, C.J. Taylor and B.L. Brown 365

Is CCK a satiety hormone? Correlations of plasma CCK with hunger, satiety and gastric emptying in normal volunteers
S.J. French, B. Murray, R.D.E. Rumsey, C.P. Sepple and N.W. Read 366

The action of omeprazole on food intake in the chicken
B.J. Campbell 367

A comparison of noise levels produced by different magnetic stimulators
S.G. Boyd, R.H. Kandler and W.R. Stevens 368

Ion channels in primary cultured cells from rat choroid plexus
P.J. Kemp, R. Trebilcock and P.D. Brown 369

TRH analogue antagonizes stimulus evoked inhibition of ventrobasal thalamic transmission in the anaesthetized rat
K.A. Clarke and L. Djouhri 370

Acetylcholine and GABA receptors of *Caenorhabditis elegans* expressed in *Xenopus oocytes*
J.T. Fleming, H.A. Riina and D.B. Sattelle 371

The effects of hypothyroidism on ischaemia- and reperfusion-induced arrhythmias following coronary occlusion in isolated rat hearts
H.L. O'Brien and R. Chess-Williams 372

ATP modulates the resting potential of isolated rabbit pulmonary arterial cells via a cromakalim- and glibenclamide-sensitive K^+ current
L.H. Clapp and A.M. Gurney 373

The effects of anoxia on force production in isolated rat uterus
Richard C. Heaton and Susan Wray 374
